PROFESSIONAL SUMMARY

Motivated 3rd-year B.Tech student (CSE - AI & ML) with strong foundations in Data Structures, Algorithms, and full-stack development. Experienced in building AI-driven and scalable web applications using Python, JavaScript, and modern frameworks. Passionate about solving real-world problems and developing efficient systems.

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript
Web: HTML, CSS, React.js, Bootstrap
Frameworks: Django, Flask, Node.js, Express.js
AI & Data: NumPy, Pandas, Matplotlib, TensorFlow
Database: MySQL, MongoDB
Tools: Git, GitHub, VS Code, Jupyter Notebook
Core: Data Structures, Algorithms, DBMS, OOP

PROJECTS

Policy Conflict Verification & Policy Intelligence Platform

- Developed an AI-powered platform to detect conflicts, duplicates, and modifications in policy documents
- Implemented OCR, NLP-based clause segmentation, and similarity detection
- Built scalable architecture using React, Node.js, and AI microservices

CivicLens – Smart Civic Issue Reporting Platform

- Built a platform for reporting civic issues with Google Maps integration
- Added AI-based image-to-description generation with GPS tracking
- Implemented offline sync functionality

Healix – AI Mental Wellness Platform

- Developed during AI/ML Sprint focusing on mental health monitoring
- Implemented sentiment and stress analysis using AI models

Movie Recommendation System

- Built ML-based recommendation engine using user preferences
- Applied data preprocessing and similarity algorithms

EDUCATION

B.Tech in Computer Science Engineering (AI & ML)	2023 – 2027
Parul University	CGPA: 8.22
Intermediate (12th)	2023
Viswa Jyothi Junior College	82.9%
SSC (10th)	2021
Infant Jesus High School	98.8%

CERTIFICATIONS

AI/ML Sprint – byteXL 2025

Contributed to the development of Healix, an AI-driven mental wellness project. Gained experience in responsible AI systems and real-world healthcare problem-solving.

AI Bootcamp – C-DAC Pune (FutureSkills PRIME)

Completed intensive AI training with A+ grade covering Machine Learning, Deep Learning, NLP, and AI Ethics. Strengthened AI and problem-solving skills through practical applications.

ACHIEVEMENTS

- **NCC C Certificate (2023–2026)** — Developed leadership, discipline, and team management skills
- Active problem solver on LeetCode with strong DSA foundation
- Participated in hackathons and team-based development projects
